

Easier Access to Frequently Used Activities.

The INSITE Dashboard streamlines your work by placing primary activities in one convenient location. Complete routine tasks with fewer clicks, while the supervised individual's profile remains the primary workspace for more detailed case management.

Quick Actions

Complete your most common tasks directly from the Dashboard.

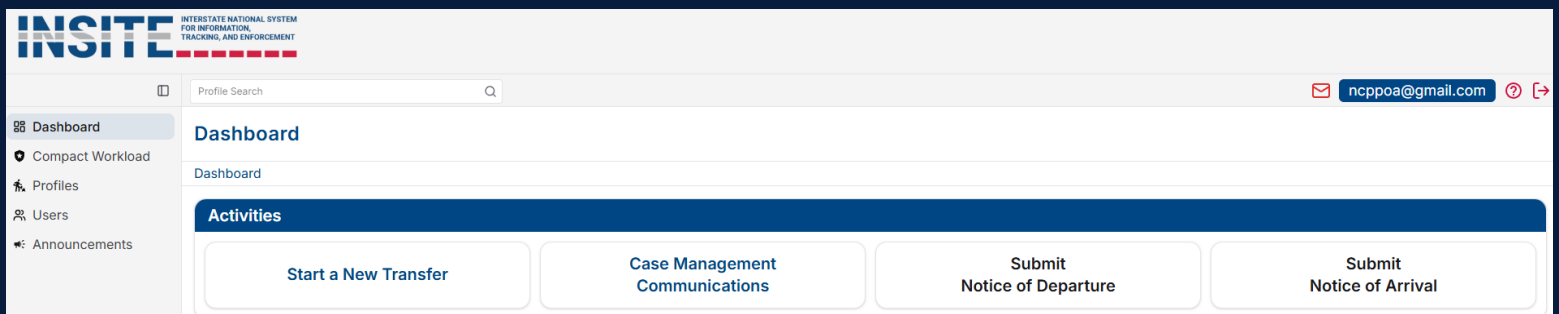

- **Start a New Transfer**
- **Notice of Arrival**
- **Notice of Departure**
- **Case Management Communications**

Your Starting Point

Everything you need to get started in one place.

Quickly access primary activities without searching through multiple menus.

Communications

Stay connected. Stay on task.

View and respond to case management communications from the Dashboard.

Supervised Individual Profile

Your central workspace.

Launch activities from the Dashboard, & complete detailed case management within the individual's profile.

LESS SEARCHING. MORE DOING.

The Dashboard is designed to help you spend less time navigating menus and more time managing cases by putting common activities front and center.
