LOCATION

The process begins with a simple question about the supervised individual's location. Based on the response, INSITE directs users to the appropriate workflow.

MODERNIZATION

As court proceedings continue to evolve, INSITE now includes an easy way to document when a supervised individual was sentenced remotely.

TIMEFRAMES

Built-in timeframes help INSITE identify the correct activity based on where the supervised individual is in the Compact process.

The right activity. The right order. The right start.
